

Sterling Services

Architectural Precast Specialists

St Catherine's College, Oxford

St Catherine's College boasts various types of precast systems from architectural precast louvers to structural precast columns and structural internal precast walls with integrated cantilever staircase. The structural precast walls were cast on site due to the size and weight.

Materials

Precast concrete - Granite Grey C40 mix design

Duration

18 months

Contract Completion

January 2005

Contract Value

£600k
